SUMMARY

I build user-focused mobile applications and scalable backend systems. I have end-to-end development experience, from mobile product development to backend services and infrastructure.

EXPERIENCE

Freelance Software Engineer

Remote

Software Engineer

Oct 2025 – Feb 2026

- Built a multi-tenant Django REST backend with RBAC for 3,000+ companies and ~100 active users.
- Implemented payment integration for Param and PayTR with transaction validation and callbacks.
- Configured and ran a production mail server (Postfix + Dovecot) with SPF, DKIM and DMARC.
- Set up Kubernetes clusters with kubeadm and handled deployments and debugging with kubectl.

Fiyator A.Ş. (Ankara, Türkiye) · fiyator.com

Remote

Software Engineer Intern

Jun 2025 – Oct 2025

- Worked on backend systems with 14M+ product records, 12M+ images and 529K+ categories.
- Reduced average API response from ~450ms to ~200ms with PostgreSQL indexing, Redis and Elasticsearch.
- Built a Django + FastAPI category matching service with 95% accuracy using Semantic Transformers.
- Designed FAISS vector search with Redis caching and a FastAPI service running Ollama (gemma3n:e2b).
- Led the Flutter mobile redesign and documented 45+ functional and UI issues in the app.
- Found and fixed a subscription validation bug that let expired premium users keep access.

PROJECTS

BidsForShips · bidsforships.com

B2B tender and bidding platform for the maritime industry, with a multi-tenant backend.

Django · PostgreSQL · Redis · Celery · Elasticsearch · Docker · Kubernetes · Hetzner

Zerbook

Present

Gold portfolio tracking app built with Flutter. I build the .NET backend and manage store releases.

Flutter · Dart · .NET · PostgreSQL · Firebase · Docker · Kubernetes · App Store · Google Play

Entegram · App Store / Play Store

English learning app built around short, swipe-based lessons using Flutter and ASP.NET Core.

Flutter · ASP.NET Core · PostgreSQL · Firebase · Docker · Kubernetes

Mail Sender Smart Edition · mailsendersmartedition.com

AI-powered bulk email management platform.

Flutter · Django · PostgreSQL · Gemini 2.5 Flash · Postfix + Dovecot · Docker · Kubernetes

CompAtlas · compatlas.com.tr

Present

Data platform I build on my own, covering 17K+ tech companies across Türkiye's 81 provinces.

Next.js · Supabase · SEO/GEO · OSM · Google Places · Overture Maps

Özyalçınlar Kereste · Corporate website for a timber company, developed with React (in progress).

TECHNICAL SKILLS

Languages Python, Dart, C#, Kotlin, Java

Mobile & Web Flutter, Firebase, Next.js, React, Supabase, App Store & Google Play releases

Backend Django, DRF, FastAPI, ASP.NET Core, Celery, REST APIs, RBAC, JWT

Databases PostgreSQL, Redis, Elasticsearch, SQLite

DevOps Docker, Kubernetes (kubeadm), GitHub Actions, Linux, CI/CD, Hetzner

AI/ML LLM integration (Ollama, Gemini), FAISS vector search, Semantic Transformers

EDUCATION & CERTIFICATIONS

Konya Technical University · B.Sc. Computer Engineering · GPA 3.40 / 4.00

Aug 2022 – Jun 2026

Certifications Certificate portfolio · Teknofest Participation Certificate
